### MOTIVATION

---

Passionate about software development, I design high-performance and scalable web solutions. My freelance experience has allowed me to develop versatility and autonomy on various projects. I am looking for an opportunity that will allow me to contribute to ambitious projects while continuing to enhance my skills within an innovative team.

### EXPERIENCE

---

#### Kuai Sourcing

May 2024 - Present

*Freelance*

- **Stack:** Next.js, Tailwind CSS, Firebase, Git, JavaScript, REST API
- Developed an optimized interface with Next.js and Tailwind CSS, reducing loading time by 30%.
- Implemented Firebase for real-time multi-user data synchronization.
- Created an interactive analytical dashboard for tracking orders and supplier KPIs.

#### Gasti Consulting

Jan. 2025 - Mar. 2025

*Freelance*

- **Stack:** TypeScript, Next.js, Tailwind CSS, Git, Strapi, Postgres
- Developed a scalable web platform with Next.js and TypeScript.
- Integrated Strapi for dynamic and centralized content management.
- Optimized SEO and performance via Next.js SSR/SSG.
- Deployed on Vercel for high availability and fast loading.

#### Information Technology Analyst

April 2023 – Present

*Cegedim Outsourcing*

*Rabat, Morocco*

- **Stack:** Active Directory, Azure MFA, Windows Server, ITIL, Ivanti
- Level 1 and 2 technical support, diagnosing and resolving software and hardware incidents.
- Configuration and management of user accounts via Active Directory, ensuring secure access control.
- Monitoring of systems and servers with Centreon for proactive incident detection and resolution.

#### IT Support Technician

Jan. 2022 – Apr. 2023

*Econocom*

*Technopolis, Morocco*

- **Stack:** ServiceNow, Windows, Office 365, Active Directory, ITIL
- Resolve customer technical issues.
- -Ensure the processing of user requests (Calls + E-mails).
- -Maintain dialogue between the different levels of support.
- -Contribute to the continuous improvement of the service and respect the contractual commitments and the group's safety rules.

### ACADEMIC PROJECTS

---

#### BIDAYA Crowdfunding Platform | *Angular, Tailwind CSS, Spring Boot, PostgreSQL*

2024

- Developed a responsive interface with Angular and managed UI with Tailwind CSS.
- Implemented secure authentication with JWT and Spring Security.
- Created RESTful APIs and managed data with PostgreSQL.

#### Remote Control Web Application | *PHP, JavaScript, Electron, Socket.IO*

2021

- Developed an application similar to TeamViewer using Electron and Socket.IO.
- Implemented real-time communication and DOM management with JavaScript.
- Designed and managed the database with PHP and MySQL.
